**Subject:** Camp Shawnigan Easter Seal - capital project

Good morning CVRD,

As the volunteer chair of the Area B Advisory Parks Committee, I just wanted to touch base with regard to the Camp Shawnigan Easter Seal capital project. I think this is a great initiative that will benefit the Shawnigan community and surrounding areas for another 50yrs. From a Parks & Trails perspective, I feel it would be important for the Parks Advisory Committee to discuss Camp Shawnigan's connection with the planning that is underway for Old Baldy Mountain as well as their location as they are adjacent to the train tracks.

With the recently completed Rail with Trail from Mason's Beach to Old Mill Park and the tremendous use it is already getting, I feel it would be prudent to discuss an additional section of Rail with Trail from Old Mill Park to Camp Shawnigan. Extending the multi-use accessible trail would also be complementary to St. John's Academy and their development plans as well as creating a safe corridor for their students and staff to walk/bike to the village.

I request that you please include the Area B Parks Advisory Committee in further discussions.

Cheers,

**Matthuw Ronald-Jones, Realtor**
