Re: Transit Improvement Program - 3 Year Transit Expansion

Dear Jim,

The purpose of this letter is to confirm transit service expansion plans for 2024/25 and approve transit expansion priorities for the subsequent two years.

BC Transit confirms service expansion plans with local government partners on an annual basis to coordinate the development of three-year budgets and capital plans with the Provincial Service Plan. Confirmation of next year's desired level of transit service expansion is also required to support the procurement of buses.

As your transit system has service initiatives requiring expansion funding, we have attached a Memorandum of Understanding (MOU) to formalize the process of securing provincial funding on your behalf. This MOU summarizes specific transit expansion initiatives for the next three operating years from 2024/2025 through to 2026/2027. These initiatives are derived from recommendations outlined in the most recent service plan(s) received by your Council/Board and validated in collaboration with local government staff.

Transit service expansion investments are important components to sustaining and growing a successful transit system. These investments in your transit system come with several considerations. To support Council/Board decision making, we have provided updated order-of-magnitude costing for each transit service initiative. These are based on the estimated annual increase to revenue service hours, and/or the estimated increases to the Taxi Supplement budget for Custom Transit (if applicable). If your expansion requires additional vehicles, this is identified and factored into estimated total costs. Should vehicles be procured following MOU signoff and a decision is made to not pursue service expansion, the lease fees for the new vehicles will still be added to your operating budget for a minimum of one year. If expansion requests exceed available provincial funding, BC Transit's expansion prioritization process will be used to determine which projects receive funding.

One of the key challenges we continue to face through this process is the higher probability that demand for expansion vehicles will exceed the availability in each fleet category. More advanced lead times are required for procurement and delivery of buses, and bus orders need to be strategically timed to align with our deployment plans. While every effort is made to align bus orders with demand, some expansion initiatives will likely be impacted by the limited availability of certain vehicle types. Despite these challenges, we continue to work with our local government

partners to identify and develop expansion priorities, and to align our expansion initiatives with our overall fleet procurement plans.

By conveying proposed transit service expansion initiatives as far in advance as possible, we are seeking to achieve four important goals:

1. Ensure 3-year expansion initiatives are consistent with the expectations of local governments.
2. Provide local government partners with enhanced 3-year forecasts that identify longer term funding requirements.
3. Ensure transit system infrastructure investments needed to support transit service expansion plans are aligned with transit service expansion initiatives identified in both local government and BC Transit's 3-year operating budgets and the long-term capital plans.
4. Attain a commitment from local governments that allow BC Transit to proceed with the procurement and management of resources necessary to implement transit service expansions.

Upon confirmation of your Council/Board's commitment to the expansion initiatives, we will include your request in BC Transit's Service Plan funding request to the Province. Following confirmation of the provincial budget, I will confirm with you if supporting provincial funding was secured and initiate a transit service implementation plan and work with local government to advance any capital infrastructure planning that may be required to ensure alignment with transit service expansion initiatives. I look forward to working with you on the continued improvement of your transit service and encourage you to contact me if you have any questions regarding these proposed initiatives.

We ask that a signed copy of this letter be returned to BC Transit by September 29, 2023. If you are unable to meet this deadline, please contact me at your earliest convenience.

Yours truly,

Seth Wright

Proposed Transit Service Expansion Initiatives

The table below outlines expansion initiatives for the 2024/25 fiscal year with an estimated costing based on the hourly rates of your existing system. Please ensure that these initiatives are consistent with your local government expectations. Upon receipt of this MOU, we will confirm funding from the Province on your behalf. Please keep in mind that should vehicles be procured to support your expansion following agreement to the MOU and a determination is made that an expansion is no longer desired by the local government, the lease fees related to the new vehicles will still be added to your operating budget for a minimum of one-year.
