

YOUNG AGRARIANS

Young Agrarians is the largest educational resource network for new and young ecological farmers in Canada.

We offer farmer-to-farmer programming to grow the next generation of farmers.

Currently, program delivery is focused on Western Canada. The network of farmers and collaborating organizations is national.

Context:

9% of Farmers in Canada are 35 and younger.

Cost of land and production creates significant sector entry barriers.

Primary Program Goals:

Support New Farmers to access education, training, land, business mentorship and sector resources.
