Hi Sierra,

Please be aware of R4 on the EASC agenda two days from now.  
R4 concerns 3068 Renfrew Rd. RZ23B01 - to rezone part of the property from F-1 to R-2 to permit a subdivision.

This property is located very far down Renfrew Road to the point where the pavement turns to dirt.

The staff is recommending “denial” of this application and that is exactly what should happen. I’m hoping you will use your voice at the meeting to ensure this application does get denied.

Thank you,

Barane McCartney
