#1 Explanatory letter

The covenant was required + put in place because we wanted to live ~~in~~ an old house on the property while building a new house on the same property.

The covenant was to help ensure that the old house would be demolished after we moved into the new house.

It has been demolished, so we would like to have the covenant removed and our \$5000 deposit returned, please.

(I have also included a copy of the demolition permit, and of the Notice of inspection of that - PASSED - from Gary Anderson.)
